Tizen powered 4G smartphone from Samsung

After the release of Samsung Z3 last year, the Korean handset maker has launched its next variant of the Tizen 4G enabled smartphone, the Z2.

The device features a 10.16cm (4 inch) WVGA screen with a superior resolution. The smartphone is simple and easy to use, offering a fast and smooth performance as it is synchronised with the Tizen platform.

Powered by a 1.5GHz quad-core processor, 1GB RAM and 8GB internal memory that is expandable up to 128GB with a microSD card, the device features dual SIM support. It is backed by a long lasting 1500mAh battery boosted by the unique 'ultra power saving mode', enabling the smartphone to operate even at minimal battery levels.

The smartphone is equipped with a 5 mega-pixel rear camera with LED flash and a VGA front camera. The Samsung Z2 is available in gold, black and wine red colours via all mobile phone retail stores.

Address: Samsung India Electronics Pvt Ltd, 2nd, 3rd and 4th Floors, Tower C, Vipul Tech Square, Golf Course Road, Gurgaon Sector 43, Gurgaon - 122002; **Ph:** 124-4881234; **Website:** www.samsung.com

Audio Technica's noise-cancelling headphones

Audio Technica, Japan, has launched its new set of headphones, the ATH-ANC40BT, which are equipped with QuietPoint active noise-cancelling technology that the company claims reduces ambient noise by up to 90 per cent.

With 13.5mm drivers, the headphones deliver superior sound reproduction. The device comes with Bluetooth functionality, coupled with an in-line microphone and controls that let the user operate it hands-free—wirelessly answering/ending calls, controlling music playback and adjusting the volume on Bluetooth enabled devices.

The headphones feature aptX sound-improvement technology, which enables the best possible audio performance over Bluetooth transmission. A convenient
