An all-metal smartwatch from Titan

Indian watch manufacturer, Titan, has launched its latest smartwatch, the Juxt Pro, known to be a modified version of Titan's Juxt, which was launched in January. The watch has been designed with an all-metal body that has flat buttons on the side. It sports a 3.3cm (1.3 inch) 360 x 360 pixel IPS LCD display with a pixel density of 278ppi and Corning Gorilla Glass 3.

Like the previous version, the Juxt Pro is water-resistant up to a depth of 30 metres. It measures 49.5mm x 50.2mm x 15.2mm, making it a bit thicker than the Juxt.

Featuring Bluetooth v4.0 connectivity, the device is powered by a 1GHz dual-core Intel processor

along with 512MB RAM and 4GB inbuilt storage, with a 450mAh battery.

The Juxt Pro is capable of pairing with Android (version 4.4 and above) and iOS (version 8 and above) devices via the Titan Juxt app and via Bluetooth. It comes with preloaded 20 watch faces and also supports Bluetooth headphones. The Titan Juxt Pro displays smartphone notifications like messages and emails, while allowing users to answer calls as well.

Additional features of the device include a built-in music app to store music, a camera, as well as sensors like an accelerometer and gyroscope.
