

Pocket-friendly smartphones from Xiaomi

Chinese smartphone manufacturer, Xiaomi, has launched its budget smartphones with the latest features, in India. The phones come in two variants – Xiaomi Redmi 3s and Xiaomi Redmi 3s Prime.

The Redmi 3s comes with 2GB RAM and 16GB inbuilt storage, while the Redmi 3s Prime comes with 3GB RAM and 32GB inbuilt storage—expandable up to 128GB via microSD card—along with a fingerprint sensor.

Both the variants feature a 12.7cm (5 inch) HD (720X1280 pixels) IPS display, run MIUI 7.5 based on Android 6.0 Marshmallow, and have the new octa-core Qualcomm Snapdragon 430 processor (with four cores clocked at 1.1GHz and the other four at 1.4GHz) with an Adreno 505 GPU.

According to company sources, these are to be the first smartphones featuring the new Snapdragon 430

chipset in India. The devices sport a 13 megapixel rear camera with PDAF (phase detection auto-focus), an f/2.0 aperture, HDR mode, 1080p video recording and LED flash along with a 5 megapixel front camera with 1080 video recording.

The connectivity options of the handset include 4G, Wi-Fi, GPRS/EDGE, Bluetooth, GPS/A-GPS, Glonass, Wi-Fi 802.11 b/g/n and micro USB. Backed with a 4000mAh battery, the Xiaomi Redmi 3s and Redmi 3s Prime are available via Mi.com and Flipkart.

Sony launches smartphone for selfie lovers

After the success of the Xperia series, Japanese tech giant Sony has launched a smartphone targeting selfie lovers. The Xperia XA Ultra sports a 15.2cm (6 inch) full HD 1080p display that runs on Android 6.0 Marshmallow.

Backed with a 2,700mAh battery, the device comes with a 2.0GHz 64-bit octa-core processor. It has 16GB of internal memory that can be expanded up to 200GB via microSD card along with 3GB RAM.

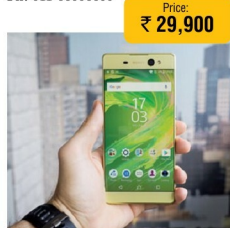

A much hyped feature of the smartphone is its 16 megapixel front camera, with an 'optical image stabiliser' and a smart selfie flash, along with a 21 megapixel auto focus rear camera that comes with quick launch capabilities enabling users to capture images in split seconds.

The connectivity options of the device include Wi-Fi, Bluetooth 4.1, NFC and LTE 4G/3G.

Available in white, graphite black and lime gold colours, the Sony Xperia XA Ultra can be purchased via online and retail stores.

Sony launches power banks with pass through charging

Japanese tech giant, Sony, has launched two power banks in India with capacities of 15,000mAh and 20,000mAh. Both models come with fast-charging output and can charge multiple devices at a time. With lithium-ion polymer technology, the devices support pass through charging, which means that the device connected to the power bank can be charged even while the power bank itself is being charged.

According to company sources, the devices retain 90 per cent of their capacity even after 1000 charge cycles. Manufactured using Sony's Hybrid Gel

technology, the 15,000mAh variant comes in silver and black, and the 20,000mAh variant is available only in black.

The power banks are available via Flipkart and retail stores.
