

Voice-activated Android TV from Vu

Leading television brand Vu has released its Android LED TV in India. With a screen resolution of 3840 x 2160 pixels, the 4K smart TV operates on Google's Android 7.0 Nougat operating system. The Android TV has official access to Google's ecosystem, including YouTube, Google Playstore and games.

Vu has also partnered with leading video-on-demand (VoD) service providers like Netflix, Hotstar, ALTBalaji, SonyLIV, YuppTV, Hungama Play, Eros Now, BIGflix, etc., to provide certified VoD apps that allow users to access unlimited, diverse and the latest content in an authorised manner.

The highlight of the TV is its inbuilt ActiVoice feature, which enables users to seamlessly search, browse and select content in 88 languages.

The ActiVoice search feature is also enabled to 'search within' apps and recommends results according to a

user's preference. With Google's built-in Chromecast technology, a user can effortlessly cast and stream any kind of content from any mobile device on to the Vu Android TV.

It comes with an A+ grade IPS panel that eliminates ambient light reflection and ensures that the picture always has depth and details. The TV comes with a 10W + 10W inbuilt sound bar that supports DTS TruSurround and Dolby Digital, which provides a high and immersive sound experience.

With a storage capacity of 16GB, the Vu Android TV runs on a quad core processor and offers connectivity options such as Bluetooth, Wi-Fi and Ethernet connectivity, headphone connectivity, HDMI and USB ports.

The Vu Android TV is available via online and retail stores in three screen sizes – 116cm (43 inches), 124cm (49 inches) and 139cm (55 inches).

Price:
₹ 36,999 for 116cm (43 inch),
₹ 46,999 for 124cm (49 inch) and

Multi-function stereo speaker from Portronics

Portronics, a prominent player in the portable digital products market, has recently launched its multi-function stereo speaker—the SoundDrum. The device comes with an inbuilt FM and multiple connectivity options. Enabled with Bluetooth 4.2BLE, the speaker offers 250 per cent faster speed, company sources claim, and much more security than Bluetooth 4.1.

It offers good sound output with two powerful 5W inbuilt speakers with amplifiers, even while playing FM. Being modestly weighted and with rubber feet at its base, the SoundDrum is very stable even at the highest volume. Apart from being compatible with Bluetooth devices like smartphones, tablets, laptops or a computer, the speakers can be connected with non-Bluetooth devices via a 3.5 mm aux. port or a pen drive.

The device offers the convenience of handsfree phone calls with the inbuilt microphone and speakerphone facility. With an International Protection rating of IPX6, the speakers are water- and dust-resistant and can be carried easily due to their compact design and low weight. The SoundDrum has an 1800mAh battery, which offers up to seven hours of non-stop music on a single charge (which takes about one to two hours).

The feature-rich SoundDrum speaker can be purchased from both online and offline stores.

Address: Portronics Digital Pvt Ltd, B-76, Wazirpur Industrial Area, Above State Bank Of India (SBI), New Delhi 110052; **Ph:** 09555245245
