Zebronic's latest gaming headphones launched

Mobile accessories manufacturer, Zebronic, has launched its latest gaming headphones called Orion.

The lightweight headphones are designed with a microphone and volume control buttons, along with metallic ear cups and LEDs. They also come with a padded headband and a comfortable ear cushion for extended hours of gaming.

With an onboard sound processor, gamers can experience 7.1 surround sound. The headphones come with 3 metres of braided cable, a flexible microphone, a USB interface and a 40mm driver unit with a 20Hz to 20,000Hz frequency response.

The inline control can be used to adjust RGB lights, mic. and volume.

The stylish and durable headphones are perfect for long hours of gaming. The Zebronic Orion can be purchased online and at retail stores.

BenQ releases two dustproof projectors in India

Computing and communication devices manufacturer, BenQ, has recently introduced two dustproof projectors in India – the BenQ DX808ST and the BenQ MW883UST.

Both the projectors come with BenQ Dust Guard technology and a dustproof protection rating of IP5X, which helps the devices to endure dusty environments.

Company sources claim the BenQ projectors perform well even with the increasing pollution levels in India. The BenQ Dust Guard technology uses a sealed optical engine design, advanced colour wheel sensors, and high-performance dust filters which block out particles up to the level of PM2.5, thus offering extended projection without colour decay.

Price:
₹ 44,000 for BenQ DX808ST and
₹ 86,000 for BenQ MW883UST

The BenQ DX808ST offers Blu-ray Full HD 3D support and features SmartEco power saving technology and 0.61 short throw ratio, making it perfect for educational purposes.

The MW883UST offers wireless use and interactivity, 3,300 ANSI lumen brightness for clearer and sharper images, TR0.23 ultra short throw, and HDMI/VGA power control. Both the projectors can be purchased online and at retail stores.

Stylish and detachable speakers from Toreto

Toreto, a leading gadget manufacturer, has unveiled its latest Bluetooth speakers called Twin Magno.

The highlight of the speakers is the True Wireless Stereo (TWS) feature, a magnetic detachable design that converts the pair into two separate speakers, on which different music can be played at the same time.

Apart from Bluetooth V4.2, the device also supports the aux. feature, which lets a user play music even when not connected via Bluetooth.

The speakers offer an output of 5W x 2, enabling loud and clear voice up to a range of 10 metres. The company claims that the speakers offer up to eight hours of playback. A user can also play each unit individually.

Price:
₹ 5,999

Offering a classic look with its woodlike finish, the speakers come with a pouch to carry them safely on picnics, excursions, etc. The Toreto Twin Magno is available for purchase on the company's website.

Address: Toreto Retail Private Limited, 12A/38, Saraswati Marg, W.E.A. Karol Bagh, New Delhi 110005
