ZenTao

ZenTao has been designed by the Agile team for agile based software projects. It is regarded as a complete life cycle management tool and supports Scrum.

ZenTao includes the SaaS version, ZenTao Cloud, which enables project managers to keep track of projects, anytime and anywhere.

Features

- Product management:** Products, stories, plans, releases and roadmaps.
- Project management:** Projects, tasks, teams, builds and burndown charts.
- Quality management:** Bugs, test cases, test tasks and test results.
- Document management:** Product document library, project document library and customised document library.

- Work management:** To-do tasks and personal work management.
 - Organisation management:** Departments, users, groups and privileges.
 - Reports:** Statistical reports.
- It also has a **Search** feature.

Latest version: 9.5.1
