

OPENCHAIN CONFORMANCE 1.1

Industry Standard for managing Open Source
Compliance across the supply chain.

OpenChain Specification defines a core set of requirements every
quality compliance program must satisfy.

OpenChain Curriculum provides the educational foundation for open source processes and
solutions while meeting key requirements of the OpenChain Specification.

OpenChain Conformance allows organizations to display their adherence to these compliance
requirements. Open source license compliance becomes predictable, understandable and
more efficient for participants of the software supply chain.

LYRA HELPS YOU IDENTIFY KEY RECOMMENDED PROCESSES FOR
EFFECTIVE OPEN SOURCE MANAGEMENT AND ALSO HELPS REDUCE
BOTTLENECKS AND RISKS WHEN USING THIRD PARTY CODE.
