

Huawei launches new flagship smartphone model with three rear cameras

Price:
₹ 65,000

Multinational telecommunications equipment company, Huawei, has unveiled its latest smartphone – the P20 Pro. Being the company's flagship smartphone model, the device comes with high-end specifications.

It has a 15.49cm (6.1-inch) near bezel-less, full HD+ OLED display and a 'notch' at the top which includes a front-facing camera, sensors and receivers, apart from a fingerprint sensor at the bottom.

The smartphone is based on Android 8.1 Oreo and runs EMUI 8.1.

The company claims this smartphone is the first to feature three rear cameras, which include a 20MP monochrome camera with a f/1.6 aperture, a 40MP RGB

camera with a f/1.8 aperture and an 8MP telephoto camera with a f/2.4 aperture.

A user can also record slow-motion videos at 960 frames per second, and take selfies with the 24MP front-facing camera with a f/2.0 aperture. Powered by an octa-core Kirin 970 processor, the P20 Pro comes with 6GB RAM and 128GB of inbuilt storage, which can be expanded up to 256GB via microSD card.

The smartphone has a large 4000mAh battery to ensure long hours of usage, and comes with 3G, 4G, Wi-Fi and Bluetooth connectivity.

Available in Twilight Black, Midnight Blue and Pink Gold, the Huawei P20 Pro can be purchased via online and retail stores.

Netgear introduces dual-band smart Wi-Fi router in India

Netgear, a leading provider of networking devices, has introduced the Netgear R6260 – AC1600.

This fast router comes with a dual-core 880MHz processor, enabling combined Wi-Fi connections at speeds of up to 1600Mbps. The device provides sufficient wireless coverage for larger homes and offices.

This router is compatible with 802.11 a/b/g/n as well as next-generation Wi-Fi devices available in the market. The new and enhanced features of the AC1600 offer extremely fast speeds and enable HD streaming throughout the coverage area.

With dual band Wi-Fi technology and a speed of 300+1300Mbps, the router avoids wireless interference and ensures reliable connections. It comes with an inbuilt app called Netgear Nighthawk, which helps to easily set up, update, configure and personalise the router.

The device comes with a USB 2.0 port and provides safety features like parental controls, separate and secure access for guests, etc.

The Netgear R6260 dual-band smart Wi-Fi router is available via authorised partners and online portals.

Address: Netgear Research India Private Limited, 5th Floor, Embassy Star, No. 8, Palace Road, Vasanth Nagar, Bengaluru, Karnataka 560052
