

Experience AI-powered selfies with this smartphone

Chinese electronics manufacturer, Oppo, has launched a new smartphone – the Oppo A71.

The highlight of this device is its artificial intelligence enabled 'beauty-recognition technology', which is based on a global image database that enhances the key areas of the face.

The smartphone comes with a built-in smart arithmetic optimisation tool, which blurs the background in order to highlight foreground subjects. With multi-frame denoising technology and ultra HD technology, a user can combine multiple images of up to 32-megapixel resolution.

The smartphone features a 13.2cm (5.2 inch) HD (720x1280 pixels) TFT display with a traditional 16:9 aspect ratio. The dual-SIM (nano) smartphone runs Android 7.1 Nougat-based ColorOS 3.2 and is clocked

with a 1.8GHz octa-core Qualcomm Snapdragon 450 SoC.

It features 3GB RAM and comes with 16GB internal memory, which is further expandable up to 256GB with a dedicated slot. It offers a 3-megapixel camera sensor on the back with an f/2.2 aperture along with an LED flash, and a 5-megapixel camera sensor on the front with an f/2.4 aperture.

Packed with a 3000mAh battery, the device offers connectivity options like 4G VoLTE, Wi-Fi 802.11 b/g/n, Bluetooth v4.2, GPS/A-GPS, microUSB, and a 3.5mm headphone jack.

Available in gold and black, the smartphone can be bought via online stores.

A smartwatch with a month-long battery life

Huami, a subsidiary of Xiaomi, has unveiled its latest smartwatch, the Amazfit Bip, which has an impressive battery life of up to 45 days when configured for minimal notifications.

The smartwatch has a screen size of 3.25cm (1.28 inch), a transreflective always-on colour display with a resolution of 176 x 176 pixels, and is protected with a 2.5D layer of Gorilla Glass3. It features IP68 dust- and water-resistance, a sleep monitor, a PPG heart rate sensor, a tri-axial acceleration sensor,

etc. Apart from Bluetooth 4.0, the smartwatch uses Xiaomi's MI Fit 3.0 app to pair with an iPhone or any Android device.

The most attractive feature of the watch is its 190mAh battery—when charged for 2.5 hours, it can last up to 4 months when used in watch mode.

The feature-rich and stylish smartwatch is available in multiple colours -- Onyx Black, White Cloud, Kokoda Green and Cinnabar Red, via online stores.
