Logitech launches its first Hindi keyboards

Logitech, the global manufacturer of mobile and computer accessories, has introduced its first ever Hindi keyboards for the Indian market.

The keyboards come in two variants—Logitech K120 (with a three-year warranty) and the Logitech MK235, a wireless Hindi keyboard combo with a mouse (with a one-year warranty).

As Hindi is the primary language spoken in Bihar and Uttar Pradesh, the company has introduced the keyboards in response to the demand in government schools, PSUs, colleges and media houses in these states.

Price:
₹ 6,15
for Logitech K120 and
₹ 1,995
for the MK235 wireless keyboard
combo (with a mouse)

The rugged keyboards have easy-to-read keys and ensure quiet typing to maintain a peaceful work environment. Along with a spill-resistant design, the keyboards have sturdy and adjustable legs which can be used to tilt them by up to 8°, depending on personal ergonomic needs.

Aimed at promoting inclusive growth as a part of the government's

Digital India programme, the affordable and stylish keyboards are compatible with both Windows and Linux systems, and are available online and at retail stores.

Lava introduces a phone with the 'Face unlock' feature

Price:
₹ 9,999

Indian multinational mobile manufacturer, Lava, has launched its latest smartphone, the Lava Z91.

This smartphone comes with a 14.4cm (5.7 inch) HD+ (720 x 1440 pixels) FullVision display with an 18:9 aspect ratio, 2.5D curved glass and a smooth glass finish at the back. Powered by the MediaTek MTK6739 processor, the smartphone runs on Android 7.1 Nougat and has a 3GB RAM. The device comes with 32GB internal storage, which is further expandable up to 128GB via microSD card.

The highlight of the smartphone is the 'Face unlock' feature being available in this price segment. The smartphone gets unlocked by scanning the user's face in just 0.7 seconds.

The device also offers a fingerprint security system at the back, which can be used as a shortcut key to open apps, using any of the five fingers.

The Lava Z91 comes with a 13 megapixel rear camera with an f/2.0 aperture and Flash, along with an 8 megapixel front-facing camera for selfies and video calling. It also comes with the inbuilt Bokeh feature, which makes the objects in focus stand out from the background.

Powered by a 3000mAh battery, the smartphone offers connectivity options like dual SIM, Wi-Fi, Bluetooth 4.0, GPS/AGPS, FM Radio, a 3.5mm jack and USB 2.0.

The Lava Z91 is available at both online and offline retail stores.
