

Google Assistant-enabled speakers launched in India

Price:
₹ 9,999
for Google Home and
₹ 4,499
for Google Home Mini

Google Home and Google Home Mini are the two Google Assistant-enabled speakers available in India now.

Google Home is a cylindrical smart speaker with an angled top, and LED indicators that change patterns and colours as per the actions performed. With a touch surface on the top, a user can control playback, volume and also activate Google Assistant by simply calling out, "Hey, Google!"

Google Home comes with a 5.08cm (2 inch) driver and dual 5.08cm (2 inch) passive radiators; it offers connectivity options like dual-band (2.4GHz and 5GHz) Wi-Fi 802.11ac. As for the audio formats, it supports HE-AAC, LC-AAC+, MP3, Vorbis, etc. It also supports Chromecast, enabling users to stream movies, shows and music to

their connected TVs or Cast speakers.

Google Home Mini, on the other hand, comes only in fabric based designs, and has four indicators on top with control mechanisms on both the left and right side to change the volume level, start or stop alarms, timers, etc.

Sporting a non-skid silicone base, the Mini speaker supposedly delivers 360-degree sound, and comes with a 40mm driver and a microphone with far field voice recognition.

On the connectivity front, the Home Mini offers dual band (2.4GHz and 5GHz) Wi-Fi 802.11ac and Bluetooth v4.1.

Both the speakers, Google Home and Google Home Mini, run on Android 4.4 KitKat and higher, and iOS 9.1 and higher. They are available online and at retail stores with multiple offers and discounts.

A wireless multi-functional presentation tool from iBall

Leading consumer electronics company, iBall, has released its wireless multi-functional presentation tool—the PresenTorchC9.

Specially designed for doctors and medical examiners, the device comes with an inbuilt torch and allows users to navigate between slides in a presentation, as well as interact with on-screen content from a distance of up to 30 metres.

The PresenTorchC9 comes with intuitive controls, using which one can go back and forth between slides, adjust the volume, blank the screen or access a hyperlink.

Targeted at those who give presentations on a regular basis, the tool comes with a magnetically housed USB receiver, embedded indication lights that alert users about the battery status, and volume control keys.

The multi-functional portable device is compatible with Android and Linux devices, and is easily available via retail stores at an affordable price.

Address: iBall India, 87, Mistry Industrial Complex, MIDC Cross Road A, Andheri (E), Mumbai 400093; **Ph:** 022 - 30815100
