

Digisol's wireless security camera

A subsidiary of Smartlink Network Systems Ltd and a leading player in the networking and CCTV surveillance space, Digisol has launched a new wireless pan/tilt IP camera – the DG-SC3600W.

The camera comes with all the mounting accessories needed for easy installation on walls and ceilings.

The plug-and-play camera uses an application on a smartphone which connects with existing Wi-Fi/Internet connections, via which the surveillance can be done online through the cloud. It has a microSD card slot for storage of up to 64GB, on which the recordings are stored and can be retrieved using the application.

Apart from these features, the camera comes with IR LED technology for clear night vision up to a 10-metre distance, enabling the camera to 'see' in absolute darkness.

The pan/tilt function gives maximum coverage of the area under surveillance. The highly flexible camera allows users to remotely monitor areas from a computer and smartphone. Additionally, the camera comes with 1 megapixel resolution support, a free app for Apple iOS and Android for cloud viewing, a built-in microphone and speaker for two-way audio, email/app alerts and motion based recording.

The Digisol DG-SC3600W is available at retail stores.

Address: Digisol Systems Ltd, Smartlink House, Plot No. 5, Bandra-Kurla Complex Road, Santa Cruz (E), Mumbai 400098

Portronics launches multi-functional portable projector

With an extremely portable size of just over 7.6cm x 7.6cm x 3.8cm (3" x 3" x 1.5"), the device can project crystal clear multimedia content from a variety of sources.

It is useful for homes, offices as well as gaming due to its screen size. It can easily be connected to a DVD player, microSD card, USB drive and HDMI enabled device like laptops, streaming dongles, etc. The device comes with a multi-functional remote control with the usual functions like play, pause, stop, zoom, freeze, etc, for comfortable and hassle-free usage.

The projector works on 110V-240V 50/60Hz AC power and comes with a built-in fan that keeps

the temperature under control. With the LED's life span going up to 20,000 hours, the Progenie allows the user to charge 5V devices like Android, iOS or Windows smartphones, cameras, etc, from a USB port.

Weighing just 200g, the user can easily carry the printer around in a small handbag or a laptop bag.

The Portronics Progenie is packed with an HDMI cable, AVI cable and a tripod. It is available at both online and offline stores.

Address: Portronics Digital Private Limited, 4E/14, Azad Bhavan, Jhandewalan, New Delhi 110055;
