

CONTENTS

OCTOBER 2017 | ISSN-2456-4885

ADMIN

- 28 The DevOps Series Using Docker with Ansible
- 38 Managing Log Files with the Logrotate Utility

DEVELOPERS

- 46 Fast Text: Incredibly Fast Text Classification
- 50 A Quick Look at Data Mining with Weka
- 57 Implementing Scalable and High Performance Machine Learning Algorithms Using Apache Mahout
- 60 The Long and Short of Waits in Web Applications Using Selenium
- 62 Using Python to Automate Retweets
- 68 Regular Expressions in Programming Languages: PHP and the Web
- 73 An Introduction to Deeplearning4j, the Distributed Deep Learning Library
- 76 Converting a Django App to a REST API
- 80 Starting the DevOps Journey Using Cucumber and Selenium

FOR U & ME

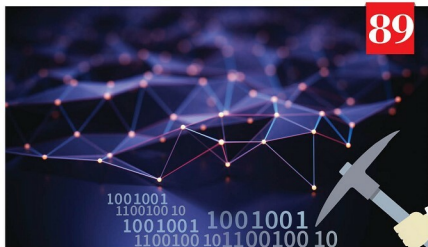

- 26 The Smart Cube Uses Open Source to Deliver Custom Research and Analytics Services
- 105 What's the Difference between Deep Learning, Machine Learning and AI?
- 108 Data Science and Machine Learning Working Together to Make Machines Smarter

OPENGURUS

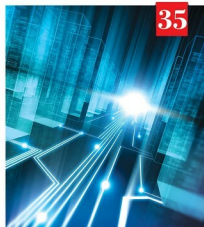

- 85 Tracing Vehicular Mobility in ns-3
- 92 Snappy Ubuntu Core for Embedded and IoT Devices

COLUMNS

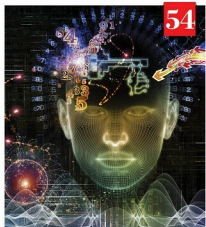

- 13 CodeSport
- 16 Exploring Software: A Quick Start to WebAssembly

Understanding How a Neural Network Works Using R

Surfing the Digital Wave with ADDC

A Quick Look at Image Processing with Deep Learning

REGULAR FEATURES

06 FossBytes | 20 New Products | 112 Tips & Tricks
